## Module Review

In this module, you learned how to create pipelines and publish them as REST services.

Use the following review questions to check your learning.

### Question 1

What type of object should you use to pass data between pipeline steps?

- ☐ Datastore
- ☐ Dataset
- ☐ PipelineData

Check Answers

### Question 2

You plan to use the `Schedule.create` method to create a schedule for a published pipeline.

What kind of object must you create first to configure how frequently the pipeline runs?

- ☐ ScheduleRecurrance
- ☐ Datastore
- ☐ PipelineParameter
